

SHEnetics

Artificial Intelligence that speaks your language

Our mission

Provide a convenient, easy and enjoyable way for people to talk, connect and interact with technology.

Technology

- Built on 20+ years of R&D and global deployments
- Conversational AI / Personalization Engine
- Open standards interface (REST, websockets, socketio)
- Highly scalable, globally deployable architecture
- Hybrid deployment from cloud, on-premise and embedded
- Online and offline modes
- White label platform
- System and user based knowledge graphs
- Machine learning
- API and Plugin architecture

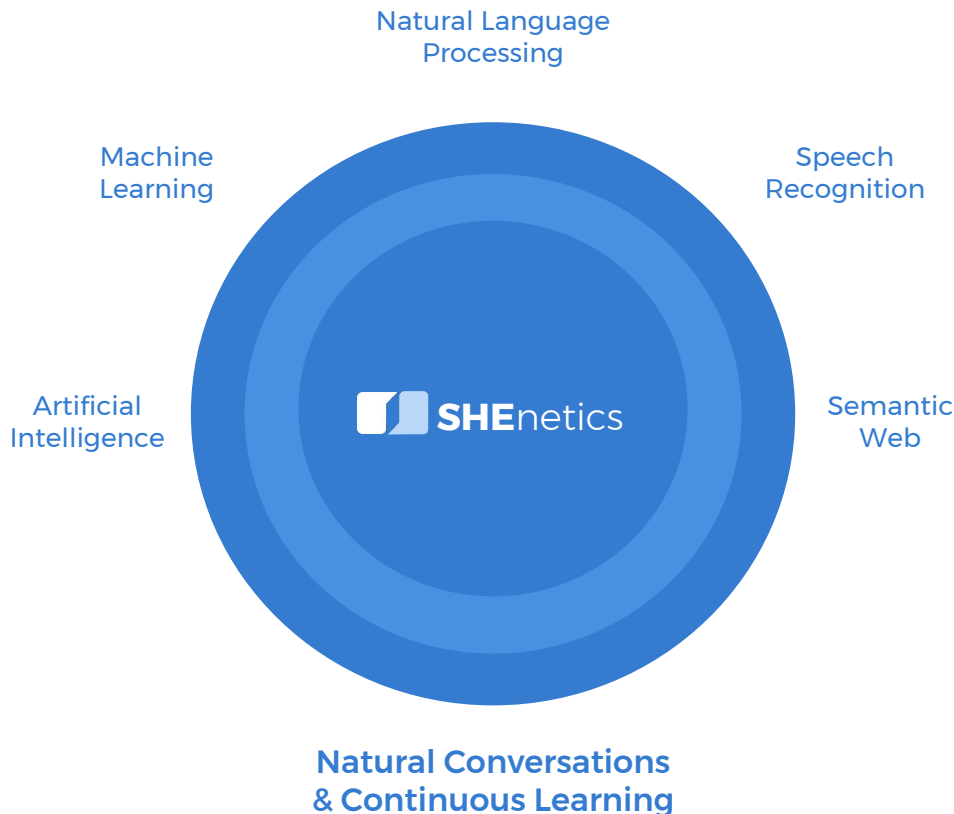

Markets

Automotive & Avionics

Hospitality

Healthcare

Consumer Technology

The Difference

Breakthrough conversational AI interface powered by a cloud platform

Natural, personalized & relevant

Learn, understand & know customers

Protect and secure content, data & analytics

Own the interface to strengthen brand and customer loyalty
