

# WE COMPUTE

for

**national center for**

**women &**

**INFORMATION  
TECHNOLOGY**

# PROBLEM DETAILS

- PROBLEM STATEMENT-

To encourage women to pursue their career in computer related field

- COMMUNITY-

*National Centre for Women and Information Technology(NCWIT)*. It is the only national non-profit focused on women's participation in computing across the entire ecosystem.

# OUR TEAM

“Teamwork is where,  
there is less ‘ME’ and more ‘WE’ “

## Introduction to our team

1. Anshu Mathur
2. Ayushi Bansal
3. Sheetal Singh
4. Surbhi Aggarwal

# NEED OF THE APP

- ❖ In today's scenario, women are capable enough to turn the world upside down with their knowledge, talent and perseverance.  
All they need is a platform where they can put their knowledge into action . NCWIT provides such a platform to women across the globe.
- ❖ But this initiative can have more impact if this platform is easily accessible to every women in the world.

# IDEA

We propose the solution to this problem in the form of a mobile app.

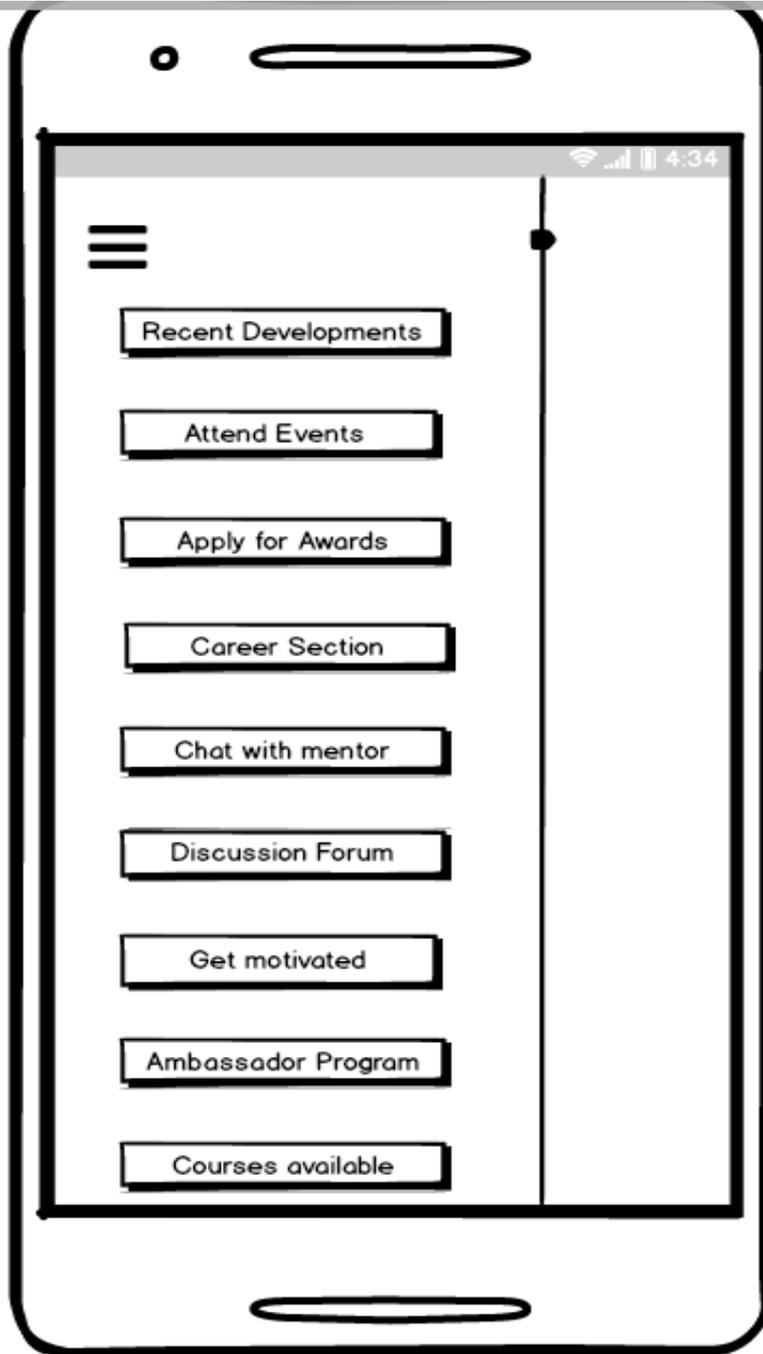

- This app will build a self sustaining community of women from all over the world
- Help them get proper guidance from experts to boost their technical skills
- Connect them with recruiters
- Notify them about all the events of NCWIT
- Help them apply easily in programs and schemes of NCWIT

# FUNCTIONALITIES

- Give access to **others' experience**
- Help them **talk to peers**
- Help them **connect to mentors**
- Give them with a **goalsheet** to motivate them
- **Notify** them about all the **upcoming events and recent developments**
- Help them apply for **ambassador programme**
- Subscribe for **motivational mails** on a daily basis
- Upload their **resume** and apply for **internships/jobs**
- Provide a list of all the **courses** available
- Help them apply for **NCWIT awards**

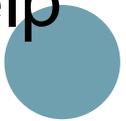

## MAIN FUNCTIONALITIES

# SHOWSTOPPER

- Career section: Women can upload their resume , search and apply for internships and check their application status
  - Talk with peers: Women can discuss and seek help from experts and mentors. This will result in proper and timely guidance to all women.
  - Connect with mentors: Women can openly discuss their doubts with their peers through a common discussion portal.
  - Motivational mails: The users can subscribe to motivational mails on a daily basis . This will help them maintain their dedication towards their work
- 

# IMPACT OF THE APP

- ✓ Every women irrespective of their age, education qualification, geographic location can connect with experts and their peers .
- ✓ If people don't allow women to go out and access technology, we can make technology come to them.
- ✓ Make the platform provided by NCWIT more accessible and at the finger tips of all women.
- ✓ We make world a better place to live by helping each other and getting the best out of each one of us.
- ✓ By making this app we will let women become self sufficient.

# CONTRIBUTIONS

And that is how we transformed this idea into reality

1. Anshu Mathur- Idea and prototype
2. Ayushi Bansal- Idea and prototype
3. Sheetal Singh- Idea and product video
4. Surbhi Aggarwal- Idea and product presentation
